The area is perfect for young and old who want to experience a taste of traditional Turkey or just enjoy a heavenly holiday.

If you want more than sunbathing by the pool or relaxing to the breaking of the waves then the apartment is a perfect holiday base to explore all that Turkey has to offer.

**Adventure** with white water rafting, a jeep safari, climbing, mountain biking or horse riding in the **Taurus Mountains**. Or for the more ambitious try paragliding and micro-lighting over one of the best beaches in the world. Alternatively, take the family to **Sultans Water Park** a few minutes away from the apartment.

**Natural Wonders** are all around; don't miss the amazing **Saklikent Gorge**, the **Mud Baths at Dalyan**, or the loggerhead turtles that lay their eggs every year on the beach (a favourite with David Bellamy!). **Pamukkule**, translated as "cotton castle", where sulphur deposits on the cliff side combined with warm sulphur pools create a wonderful sight that looks like a giant wedding cake.

**Cleopatra's Pool**, an original spa bath from Roman times with medicinal properties - it is like swimming in a warm bath of Epsom salts! You can also drink from the spring.

**Like shopping?** If you want to find fantastic bargains, visit one of the many markets that seem to sell everything. The biggest and best markets are held every Tuesday in **Fethiye** or visit **Calis** Sunday market.

**Turquoise Coast** - Spend a day visiting 12 of the secluded islands nestled around the bay of **Fethiye** on one of the many boat tours. The water is superb for swimming, snorkelling or diving, as it has some of the cleanest, clearest warm water in the Mediterranean. The area has a range of water sports available and is well known for sailing. Or why not hire a speedboat for the day?

**Explore** - You do not need to drive to get out and about in Turkey you can take the **Dolmus** (small minibus service) that goes to all the local villages. Some of the world's oldest archaeological sites and rock tombs are within walking distance.

**Nightlife** - The **Calis** nightlife is very laid back with various late night bars and restaurants along the sea front. Just a short journey away there are the livelier night spots of **Hisaronu**, **Fethiye** and **Olu Deniz**.
